

# Medius Pay

## Payment optimization

Medius Pay is your gateway to total payment management across all payment methods, delivering a simple, secure process for supplier payments that turns a cost line into a guaranteed revenue stream.

Take control of your entire invoice to pay process and make supplier payments more efficient, transparent and cost-effective than ever before.

### Benefits of Medius Pay:

#### Turn costs into revenues

- The Medius Pay fully managed service means we take responsibility for paying your supplier community quickly and efficiently.
- Eliminate all your variable check printing and ACH costs as we take care of payments via every channel for a fixed annual fee.
- Make the business case simple and compelling with a guaranteed, predictable annual dividend paid by Medius to you.

#### Streamline process for all supplier payments

- Pay all your invoices in a single consolidated process through Medius Pay. We take care of executing those payments through the most efficient and cost-effective manner for each supplier – whether by card, ACH or electronic print check.
- We perform continuous, dynamic supplier enablement across all payment types for every payment file, processing over 80% of customer payments electronically so suppliers get paid quickly and efficiently.
- Manage everything as part of your Medius AP Automation process with a unified user experience.

#### Improve security and audit, reduce risk

- Eliminate manual steps and take control of payment approvals, audit and security with a fully electronic invoice-to-pay process.
- Prevent errors and reduce the risk of fraud with automated risk factor alerts that intelligently highlight suspect payment items for review in the approvals process.
- Access invoice history direct from your payments file, making it simple to cross-check details and interrogate the history of every payment item.

# Why Medius Pay?

## Fund your initiatives

We work with your suppliers to optimize their payments wherever possible, moving them to the most efficient digital payment method for faster and more reliable payment. You can leave it to us to ensure those payments are executed promptly and we'll return a guaranteed annual dividend based on our forecast of credit card payment adoption.

## Integration with Medius AP Automation

When you are on the journey towards increased AP Automation, looking at your payment process is a logical next step to create further efficiencies. This means the entire process from receiving an invoice to the actual payment is handled by Medius with end to end process efficiency and visibility.

## Strengthen your supplier relationships

Ensure your suppliers are always paid on time to support their continuous operations. Suppliers receive rich remittance details with every payment. and can proactively manage their payment process through the intuitive Medius payee portal.

## Eliminate payment fraud and error

Medius Pay intelligently scans payment files for potential fraud and error, proactively alerting approvers to issues such as change of banking details, unusual payment values and potential duplicate payments to ensure that attention is focused where the highest risks are.

While many AP departments remain focused on the front end of the process, more groups are realizing that **ePayment solutions...are vital to completing the full cycle of P2P**
