Things IT doesn't have to worry about...

when it comes to Sourcing & Contract Management

IT departments have plenty on their plate. Managing multiple sourcing processes and keeping track of dozens if not hundreds of contracts on top of managing the business systems can be overwhelming but it doesn't need to be. Find out how Medius Sourcing & Contract Management solutions can minimize IT resource needs and get the focus back to running your business as it should be.

There's no integration required - Medius Sourcing & Contract Management can stand alone

- ERP agnostic, your business systems won't be touched

We can have you up and running within days, not months

- Proven, predictable implementation methodology described as "the gold standard" by our clients

A large part of our client base actually use Medius Sourcing & Contract Management stand alone

- Our modular suite means you can implement the solutions targeted to your sourcing and contract management processes
- As your organization grows, you can choose to strategically scale your automation with additional spend management solutions from Medius

Our system is pre-configured based on best practice

- Built by professionals in the procurement business who understands your goals and concerns
- Constantly shaped by user experience
- Updates and enhancements made on a regular basis

Medius offers all the technology support and service you need so IT can focus on other things

- Peppol Accreditation
- ISTQB Gold Partner

IT Success Story

You don't have to simply take our word for it.
Read the story below to hear the IT perspective of one of our customers.

We helped a midsize financial institution identify areas to improve processes, while creating an environment that allowed the buying teams to access the right products and services from the right suppliers at the right price - all via a single, secure, online platform. Backed by the ISO27001 accreditations, the solution meets the stringent security requirements set by CBS with the following measures:

VPN

Virtual private network (VPN) established between Medius and the organization to ensure secure access at all times

Full end to end encryption of all integration files as well as the integration communication channels

Single Sign On allows users to securely log onto Medius Spend Management with their network account

SSL

SSL security installation on the website for all users

Sensitive data encrypted within the database

Regular penetration testing

Secure development principles applied throughout the project
